

# OVARIAN CANCER

## EVERY WOMAN SHOULD KNOW THE SYMPTOMS

Ovarian cancer can occur in women  
AT ANY AGE

1 OF 78 WOMEN WILL BE DIAGNOSED  
WITH OVARIAN CANCER IN THEIR LIFETIME  
1 OF 108 WOMEN WILL DIE FROM THIS  
DEADLY CANCER

A Pap test  
**DOES NOT**  
detect ovarian  
cancer

Ovarian cancer causes more deaths each year than any other gynecologic cancer.

### TYPICAL SYMPTOMS OF OVARIAN CANCER

Bloating

Pelvic or  
Abdominal Pain

Urinary Urgency  
or Frequency

Difficulty Eating  
or Feeling Full  
Quickly

Ovarian cancer often has no symptoms in early stages. If they persist for more than two weeks, see your physician.

Risk factors for ovarian cancer:

- Family history of ovarian, colorectal or breast cancers
- Women who never had children
- Increasing age

There are no reliable screening tests for ovarian cancer. Awareness is your best defense – Know its symptoms, take action.

*“It whispers, so listen!”*
